AT 22, PATERNOSTER ROW.

INDEX.

ABERDEEN Trades Council Exhibition, 192
Abstract of address, by Dr. Wm. Huggins, F.R.S., at British Association, Cardiff, 1891, 221
„ research and practical invention, 210
Accident on the Portrush Electric Railway, 338
Accumulator in commercial work, 721
Accumulators, 339
„ New plate for, 394
Accumulator traction in Lyons, 254
Actinism, is it a species of electrolysis, by Prof. E. J. Houston, 723
Action against a traveller, 49
„ of heat on the gradual combustion of electrolytic gas, 478
„ of metals, salts, acids, &c., on India-rubber, 434
„ to recover commission, 538
Acton Hill Electrical Engineering Works sports, 82
Adaptation of Wheatstone's bridge for the measurement of resistances containing disturbing E.M.Fs., 8
Addenbrooke, G. L., on some notes on the results of the Paris Telephone Line, 299
Additional facts concerning the history of the electric transmission of power, by A. M. Tanner, 355
„ facts concerning Major Bessolo's early electric railway with overhead conductors, by A. M. Tanner, 583
Ader's flying machine, 48
Admiralty contract for asbestos goods, 141
Advertising novelties, 509
Agency, 19
Aird's "Doubly secure" tube joint, 393
Air gap in dynamos, 479
Alcock's electric lighting plant at Melbourne, 665
Alteration of address, 141, 336, 427
Alternate current distribution in the States, 166
„ current motor, C. E. L. Brown's 20 H.P. three-phase, 448
„ current motor, Hutin and Leblanc's, 99
„ current motor, Simple, 620
„ current motor working, 691
„ current potentiometer, 34
„ current and potential difference, analogies in the methods of measuring power, by Prof. W. E. Ayrton, F.R.S., and Dr. Sumpner, 25
„ currents, Polyphased, 418, 474, 501, 534, 554, 590, 724
„ currents of very high frequency, Experiments with, and their application to methods of artificial illumination, by Nikola Tesla, 103, 147, 176
„ current work, Regulation in, by J. R. Cravath, 642
„ current working, 211
Alternating circuits, Fuses on, 395
„ and continuous current systems, A central station combining the advantages of both, by H. Ward Leonard, 391, 431
„ current dynamo curves, 394
„ current machines, Some curves from, by Warren B. Lewis, 669
„ currents, Mechanical action of, 525
„ current motors, by M. Hospitalier, 206
Alternating currents, Preliminary note on a method for determining the periodic curves of, by Dr. Louis Duncan, 610
„ currents, Triphased, 679
„ dynamo, New, 621
Alternator, Rankin Kennedy's New, 534
Alternators, Damage to, 450
Alum solution, 677
Aluminium, 64
„ accumulators, 732
„ alloys and their manufacture, some improvements, 209
„ boat, 704
„ New use for, 194, 509
„ problem, The future of, from the chemical standpoint, by Dr. W. H. Wahl, 222, 287
„ production in the United States, 337
„ Reduction in price, 227
„ steamboat, 140
„ *v.* copper, by A. Saunders Morris, 614
Amalgamation and extraction of gold from ores, Improvements in, 61
Amendment of patent, 508
American Edison incandescent lamp case, 194
„ electrical industries and the Census, 454
„ lighting statistics, 487
„ opinions on the Edison lamp case, 1
„ Railway carriages for the South Eastern Railway, 539
„ Society of Mechanical Engineers, 538
" Street Railway Association, Convention at Pittsburg, 581
„ technical journalism, 112
„ *v.* European work, 563
Amor Patriæ, 227
Anderson, Lieut. G. L., on a new form of range finder for use with modern sea coast guns, 326
Annual dinner of the Institution of Electrical Engineers, 580
Another danger, 82
„ new process for recovering tin from tin plate, 677
„ pure water primary battery, 381
Appleyard, Rollo, On the measurement of the resistance of conductors containing disturbing E.M.Fs., 711
Applications, New, for electric lighting, electric railway and telephone powers, 618, 658
„ New, for electric lighting, electric railway and tramway powers, 658
„ of electrometers, 113
Application of organic acids and electrolysis to the manufacture of copper, 68
„ of the principle of pressures to widely-separated telephone transmitters, 3
Applied science, Possibilities of, 439
Appointment, 309
Arc lamp, 150 C.P., 255
„ „ The Midget, 185
Artificial rainmaking, 467
Association of Incandescent Lamp Manufacturers, 48
„ *versus* dissociation, 364
Atkinson-Elliott magnetic separator, 102
At what cost? 511
Austin and Myers, 255
Australian electrical news, 9
„ postage rates, Results of reduction, 426
Austria-Hungary, Communications from, 609
Ayrton, Prof. W. E., and Rücker, Prof. A. W. on the magnetic field in the neighbourhood of the South London Electrical Railway, 317
„ „ and Dr. Sumpner, on alternate current and potential difference analogies in the methods of measuring power, 25
„ „ and T. Mather, on the construction of non-inductive resistances, 205

BAGNOLD'S patent improved bell-pulls and bell-repeaters, 544
Bathing fatality, 19
Batteries, Leclanché, 479
„ Secondary, 508, 684
„ „ Plates for, 677
Battery, A new thermo-electric, 591
„ Another pure water primary, 381
„ from Bavaria, New, 364
„ Correns, 268
„ Gülcher thermo-electric, 415
„ jars, 311
„ Osbo-premier, 159
„ Tudor, 268
„ Weymersch, 256, 283
Behaviour of bismuth in the magnetic field, Further researches on, 158
Belgian technical press, 428
Bell-pulls and bell-repeaters, Bagnold's improved, 545
Benham & Froud, 395
Bennett, A. R., M.I.E.E., on "An electrical parcel exchange system," before the British Association, 271
„ „ on telephoning in great cities, 275
Berend & Co., 284
Berlin Electrical Works, 450
Berliner's universal transmitter, 81
Berliner, How he invented the microphone, 664
„ patent and microphones, The, 662
Bernardo's process of electric welding, 723
Bidding for contracts, 213
Birmingham Cattle and Poultry Show, 620
Bischoff, E. Hagenbach, and Zehnder, L., on the nature of the sparks in the electric vibrations of Hertz, 360, 382
Bishop Stortford electric lighting order, 733
Blake patent in Great Britain, 454
Block signalling, 469
Board of Trade returns, 676
Bohm, Dr. L. K., on the progress in the art of modern incandescent lighting, 421, 441
Bois, Du, H. E. J. G., on magnetic circuits and their measurement, 412
Books received, 338
Booth, W. H., and Lea, F. B., on steam boilers for electrical installations, 328
Boys, C. V., on pocket electrometers, 205
Bradford Town Council, 336
Brazed *v.* deposited copper, 731
Brewers' Exhibition, 538
Brighto and Hove Electric Light Co., 705
British Association for the Advancement of Science, Cardiff, 1891, 221, 240, 247 256, 271, 313, 505, 683
Broader basis for technical colleges, 523
Brown, P., L.D.S., on electricity as a motive power in dentistry, 525
Brown's, C. E. L., 20 H.P. three-phase alternate current motor, 448

Brown's rotary engine, 48, 57
Brush Company's dividend, 351
„ Electrical Engineering Company, 453
Brussels new post office, 336
Business extension, 395
„ notices, 483, 512, 540, 567, 594, 623, 651, 681, 706, 733

CABLE AND CABLES—
to the Bahamas, 649
Bahamas-Florida, 732
Berlin-Munich Telegraph, 309
Bermuda and West Indian, 649
The Channel, 192
„ „ Breakdown of, 622
Commercial, Company, 140
Electric light, 566
Halifax-Bermuda, 449
Laying, 336
Mauritius, 367
Morocco, 283
New Anglo-German, 188, 193, 227
„ Between Denmark and France, 141
„ submarine, 338
„ Swiss railway, 192
Postal, 309
Projected new, 337
Proposed new submarine, 428
Reduced rates, 166
Rumoured, rupture, 284
Safety mining, 255, 301
South American, 168
between Spain and Morocco, 649
Submarine, in the Pacific, Surveying for, 616
„ of the World, 50
Telephone, 141
Tenders wanted, 338
Underground telephone, 3
Wanted, 339

Cadogan Electric Light Company, 480
Cæsar and Pompey are very much alike, 452
Calculation on the magnetic rotation of the plane of polarised light, 523
Calendar, 732
Campbell Gas Engine, 147
Candle-power of incandescent lamps as related to current, voltage and energy consumed, 606
Can galvanic currents be developed in aqueous solutions without the help of metal, 220
Can London be telephoned for £10 per annum? 322
Capacity, self-induction and mutual induction, measurements on overhead lines, by Massin, M., 129
Capital punishment by electricity, 495
Carbon filament in a transparent vacuum chamber, used by Despretz in his experiments on the fusibility of carbon by electric heat, by A. M. Tanner, 12
Carbons, 111
Carburation of electrolytic iron, 212
Cardiff, 18
Careless reading, Values of γ and J, 94
Cases of mistaken identity, 449
Catalogue, 254, 307, 337

CENTRAL STATION—
Brighton, Opening of, 338
Central Stations, 678
„ station practice, 717
Combining the advantages of both the continuous and alternating current systems, by H. Ward Leonard, 391, 431
Deptford, 602
Dusseldorf, Opening of, 516
Hamburg, 339

Certain points of analogy between dynamos and turbo-machines, 615
Challenge, A, 14
Chambers of commerce on telegraphs and telephones, 363
Chance still left for the gas companies, 636
Changes of voltaic energy of alloys during fusion, 34
Charlesworth, Hall & Company, 49, 395
Chattock, A. P., on "Electrification of Steel Needle-points in Air," before the British Association, 683, 741
Cheap galvanic energy, 111
Chemistry of storage batteries, Further notes on the, 97
Chicago Exhibition, Co-operative excursions to, 563
Chicago Exhibition, 167, 255, 308, 538, 692 703
Chislehurst, 562
Child's telephone message, 731
Chronophotograph, 676
City Commissioners and electric lighting companies, 367
„ and Guilds of London Institute, 428, 449, 666
„ of London Electric Lighting Co., 705
„ men at home, 676

CITY NOTES—
Akester Electric Motor Company, 145
Allgemeine Electricitäts Gesellschaft, 625
Aluminium Company, 285
Anglo-American Telegraph Company, 117, 145, 169, 400
Babcock and Willcox, Limited, 21, 53, 513
Bath Electric Light Company, 311
Blackpool Electric Tramway Company, 597, 623
Brazilian Submarine Telegraph Company, 429, 456, 483, 651
British Electro-Chemical Agency, 709
Brush Electrical Engineering Company, 340, 396
Callender's Bitumen Telegraph and Waterproof Company, 400
Campbell Gas Engine Company, 229
Chili Telephone Company, 52, 84, 681
City of London Electric Lighting Company, 85, 429, 455
„ „ Electric Lighting (Pioneer) Company, 368, 400, 485
„ and South London Railway Company, 21, 168, 172, 195
Commercial Cable Company, 311, 681
Consolidated Telephone Construction and Maintenance Company, 513
Crompton and Company, 144, 513, 541, 709
„ Electric Supply Company, of Australia, 512
Cuba Submarine Telegraph Company, 145, 198
Direct Spanish Telegraph Company, 117, 285, 340, 399, 625
„ United States Cable Company, 53, 85, 117, 457
District Messenger Service and News Company, 597
Eastern Extension, Australasia and China Telegraph Company, 21, 53, 368, 457, 484, 709
„ and South African Telegraph Company, 85, 737
„ Telegraph Company, 83, 85, 114, 400, 485, 625
Edison and Swan United Electric Light Company, 53, 84, 116, 681
Electric Arms and Ammunition Syndicate, 457
„ and General Investment Co., 513
